Purchase NoteBurner Audio Recorder

Quick Link: To buy a license key for NoteBurner Audio Recorder, click [Here](#).

1. Why should I buy NoteBurner Audio Recorder?

Put it simple, NoteBurner Audio Recorder is the shareware, and the trial version has the limitation that you can only convert the first 1 minute of each audio. After you purchase our product, you will be provided with your Email and registration code which will unlock the full version.

2. What benefits do we have after registration?

- Unlimited use without any time and function restrictions.
- FREE upgrades to the updated versions of the same product released.

Register NoteBurner Audio Recorder

Step 1: Launch NoteBurner Audio Recorder. Click the “Register” button at the bottom left corner and you will see the registration window as below.

NoteBurner Audio Recorder for Mac Tutorial

Step 2: Please fill the popup dialog with Email and registration code. The registration code is case sensitive, please do not add blank at the beginning or the end of the word. You can also copy and paste the registration information into the registration popup dialog.

Step 3: After you finished the registration, the limitation of the trial version will be removed.

Notice:

1. Make sure both the Email address and registration code are provided by our company after you pay the registration fee. If you have not paid, please click **Buy Now** to buy online.
2. Please make sure the Email address and registration code you entered are complete and correct.

Installation & Interface

Customize Output Path

Directly click the “Setting” button on the bottom left, there will be a window pops up and then you can change the output path in the popup window.

Tips: If you don't change the output path, the converted files will be saved in NoteBurner Audio Recorder default folder.

Convert Audio Files

After adding the Audio files and customizing output path, just click the “**Convert**” button to start the conversion.

NoteBurner Audio Recorder for Mac Tutorial

Note: Before converting, make sure your computer is well authorized with the same Apple ID that you used when downloading the iTunes audio.

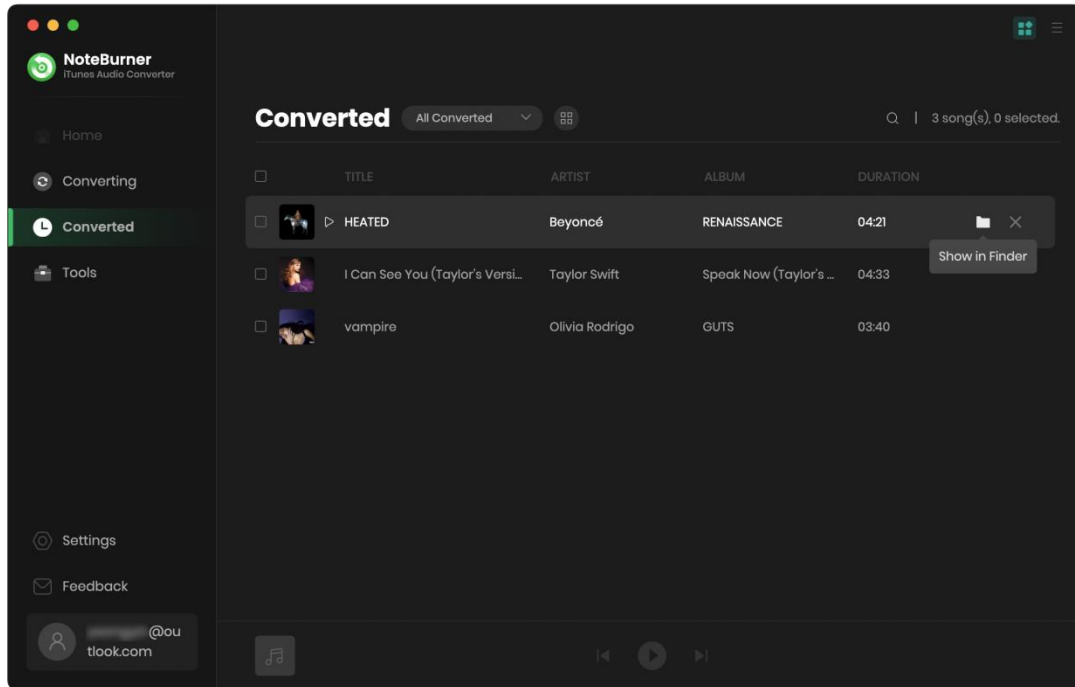

Warning: Before the status show converting progress, please don't do anything with iTunes/Apple Music during converting in case conversion may fail by occurring an error.

Check History

After conversion, you can find the converted audio files in **Converted** section on the left side.

Edit ID3 Tags

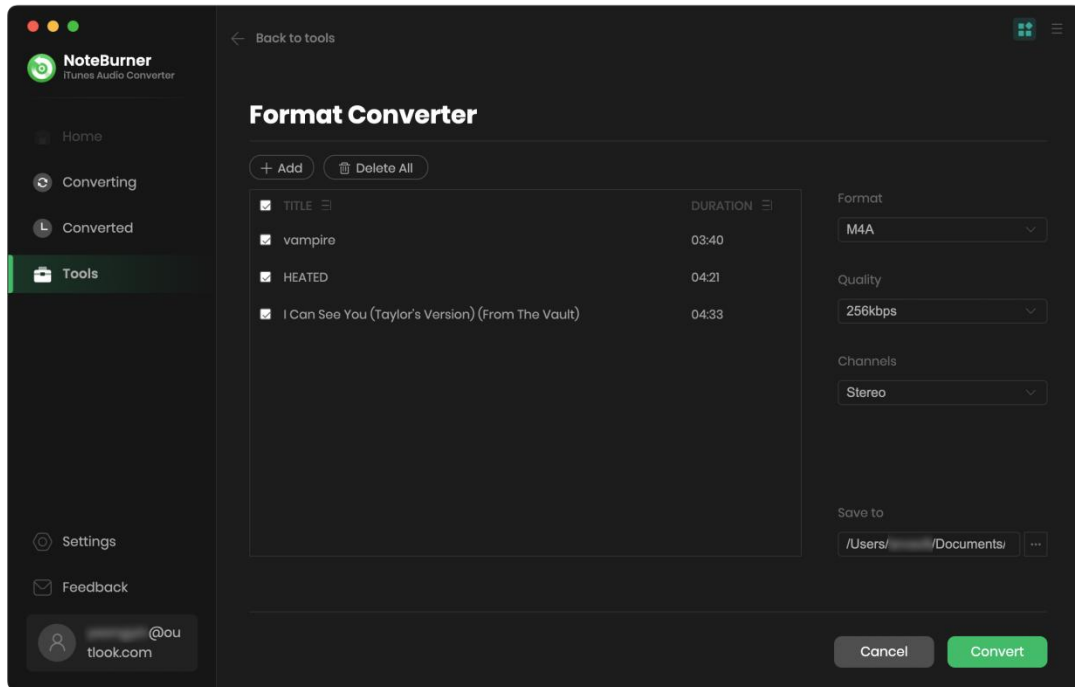

The program retains the original quality of Apple Music and keeps all ID3 tags after conversion. And you can also edit all the important and useful Meta information by clicking "**Tools >> Edit Tag**".

Convert Local Audio

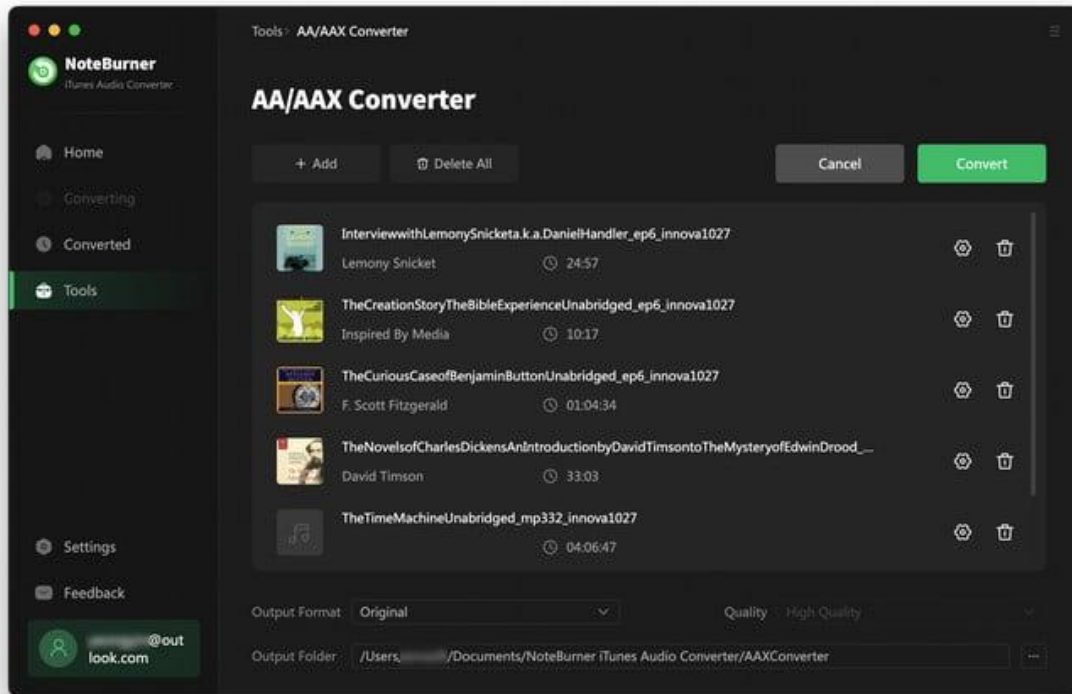

Apart from Apple Music, NoteBurner Audio Recorder also supports to convert the local music to MP3/M4A/AAC/WAV/OGG/AIFF format. Simply open NoteBurner, click "**Tools >> Format Converter**", and then add the music from your computer to convert.

Convert Audiobooks

To convert local aa/aax audiobooks, just go to "Tool > AA/AAX Converter" and you are able to convert your audiobooks to other music formats.

Audio Editor

You can also edit your converted audio files or your local music files, just go to "Tool > Audio Editor" to get it started.
