-

Installation

To install this product, please refer to the following steps:

1. Download the latest version of NoteBurner Deezer Music Converter through Download Center.

2. Install NoteBurner Deezer Music Converter on your PC.

3. After installing, you can double-click it to launch the program.

Main Interface

After launching NoteBurner Deezer Music Converter for Windows, and signing in with your Deezer Music account, you will see the main interface like this:
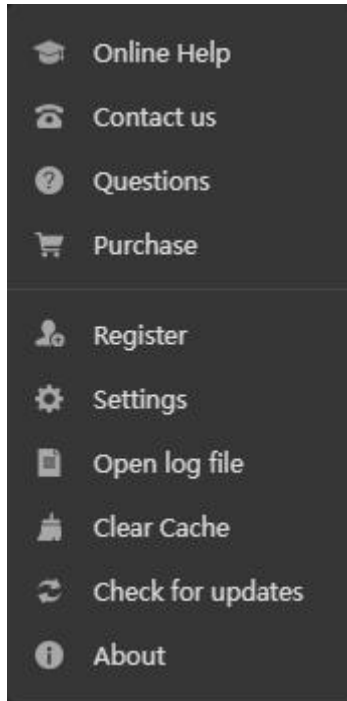

Menu

When clicking the menu bar ☰ on the upper right corner, you will see the menu list like the following picture. Here you can choose the language you want to use, check for updates when a new version is available, register your NoteBurner Deezer Music Converter account, etc.
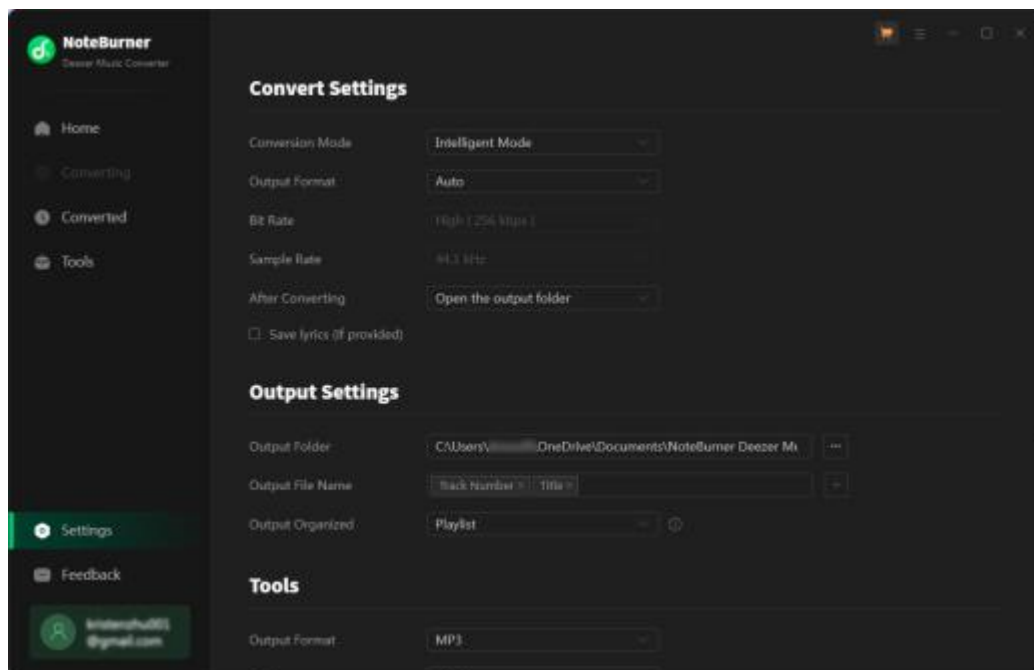

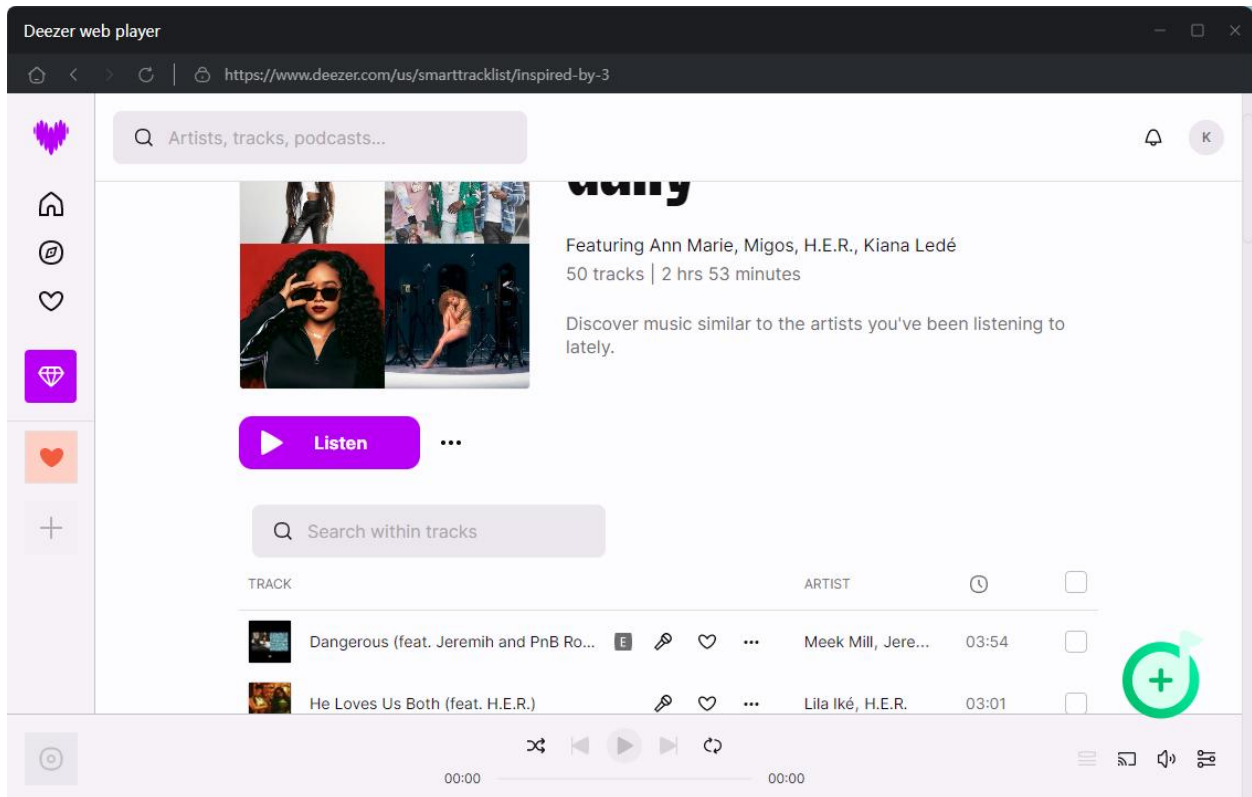

Tutorials

Choose Output Settings

Click the Setting icon on the upper right corner to choose the Output Format (AUTO/MP3/AAC/FLAC/WAV/ AIFF/ALAC), the Output Quality (up to 320kbps), Output Path, etc.
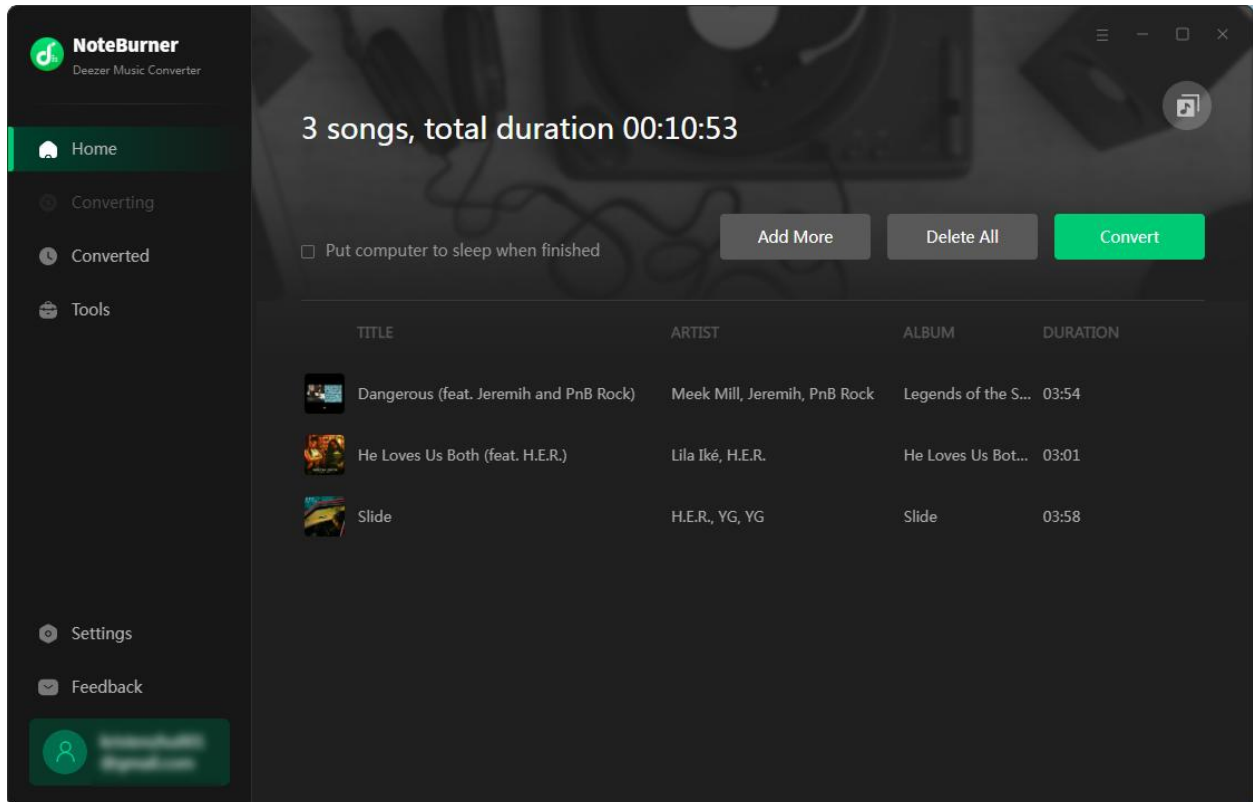

Import Music Files

Open a playlist, artist, or album, then click on the "Add" button and select the songs that you'd like to convert from the popup window.
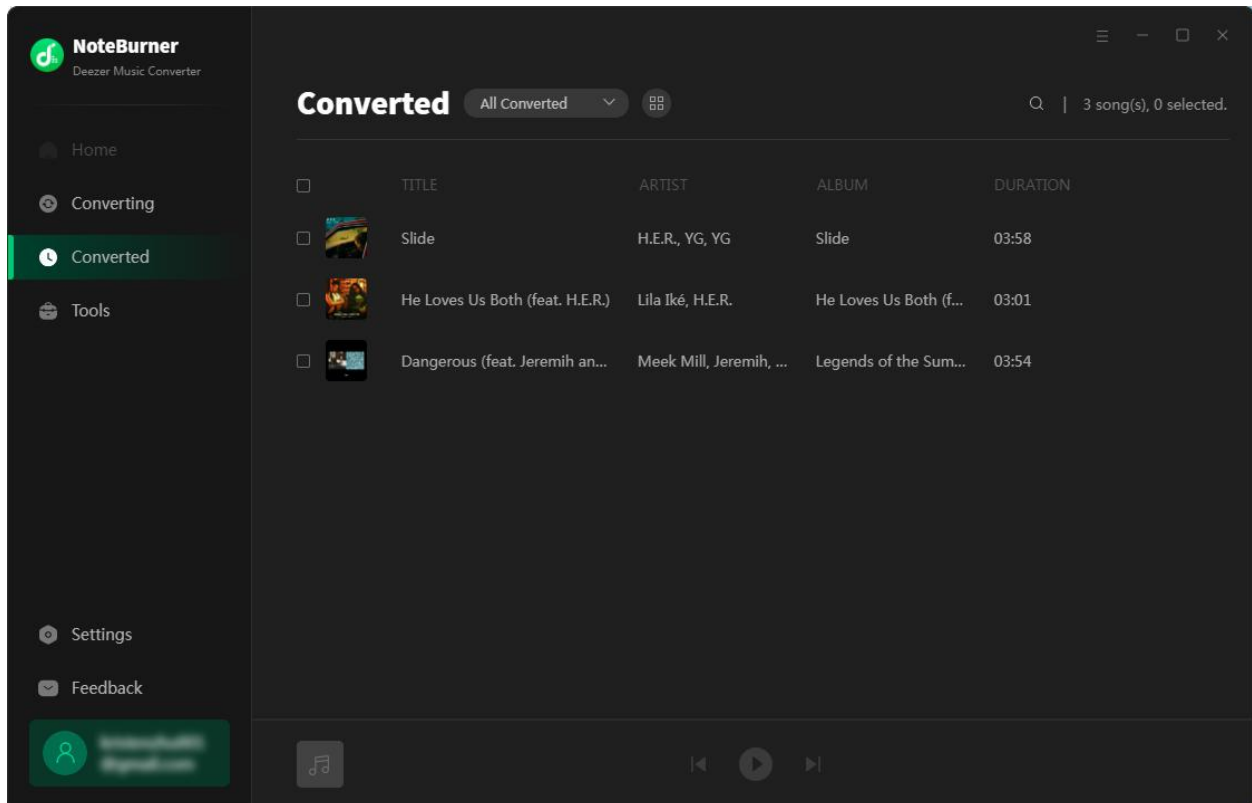

Convert Music Files

Click the **"Convert"** button to start converting the selected songs to the output format you have chosen.
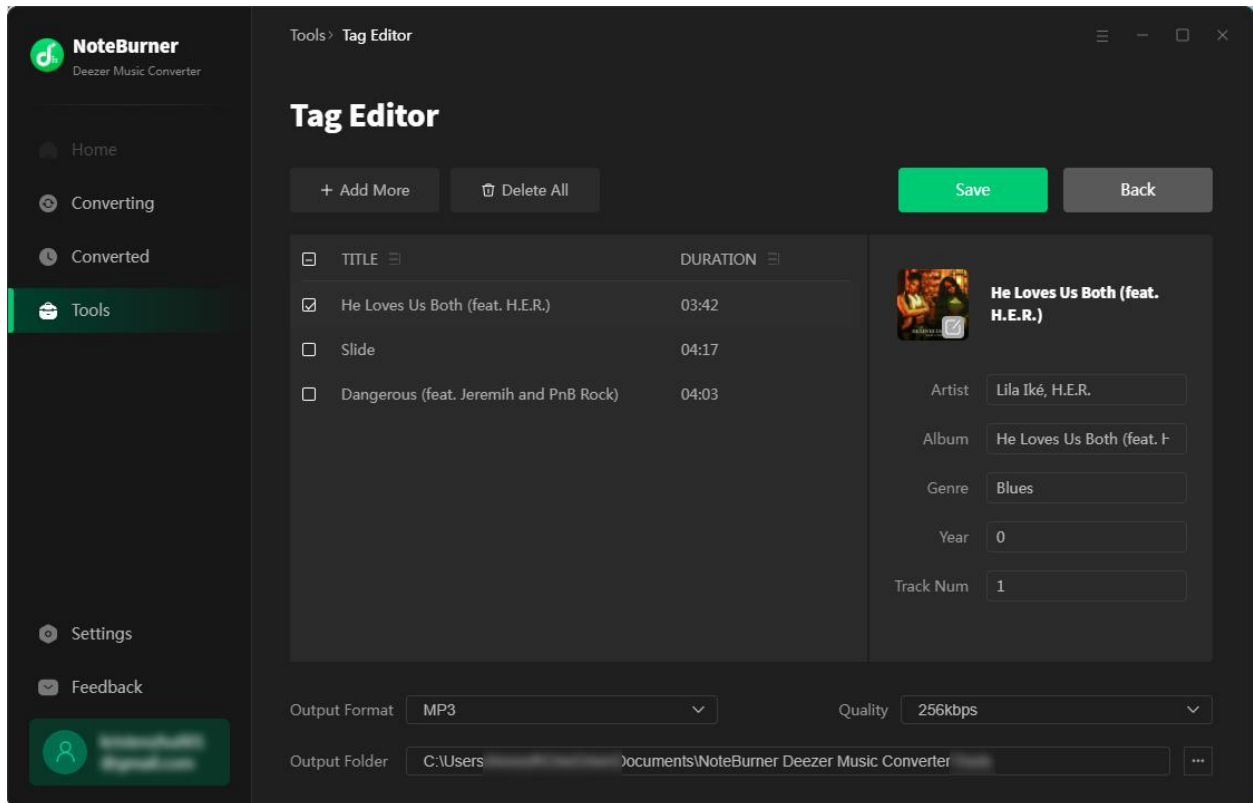

Check Conversion History

Once the conversion is done, you can find the downloaded songs by clicking "Converted" on the right side or directly going to the output folder you customized in the previous step.
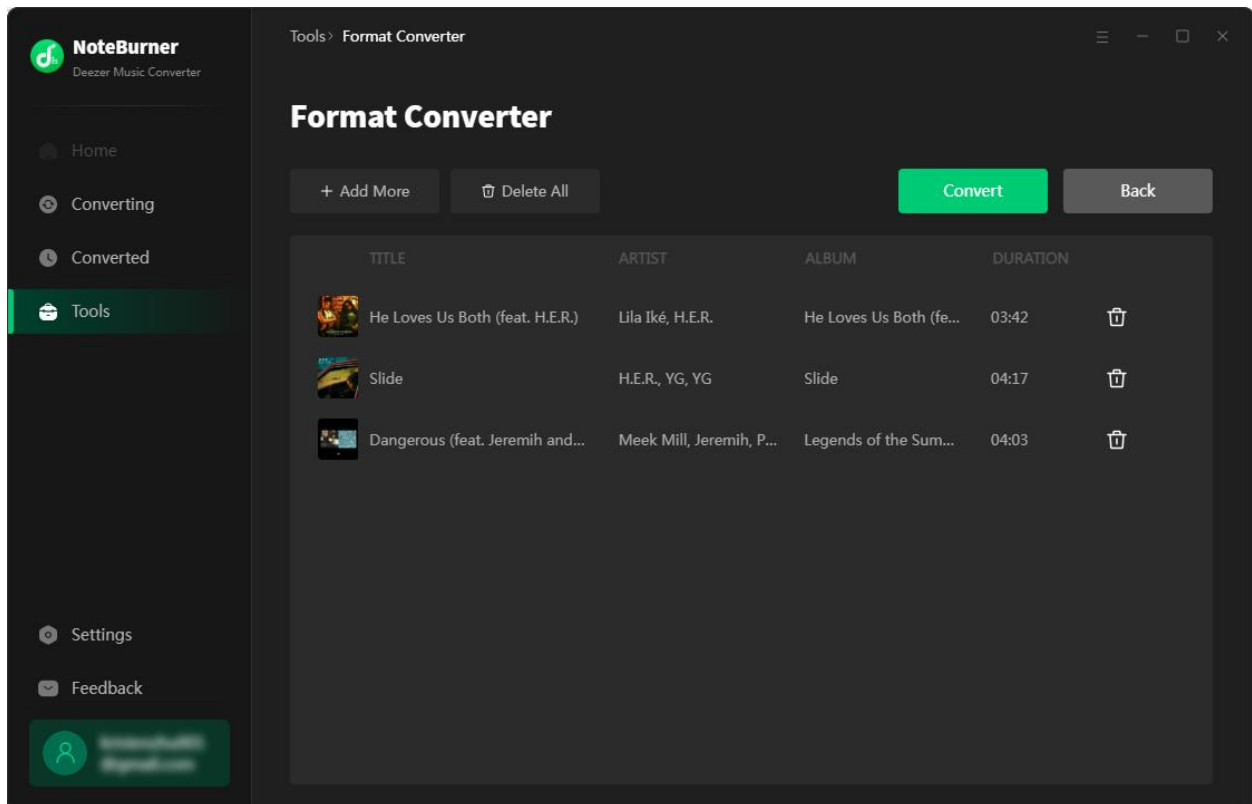

Edit ID3 Tags

The program also supports to edit any Meta information by clicking **"Tools" >> "Edit Tag"**.
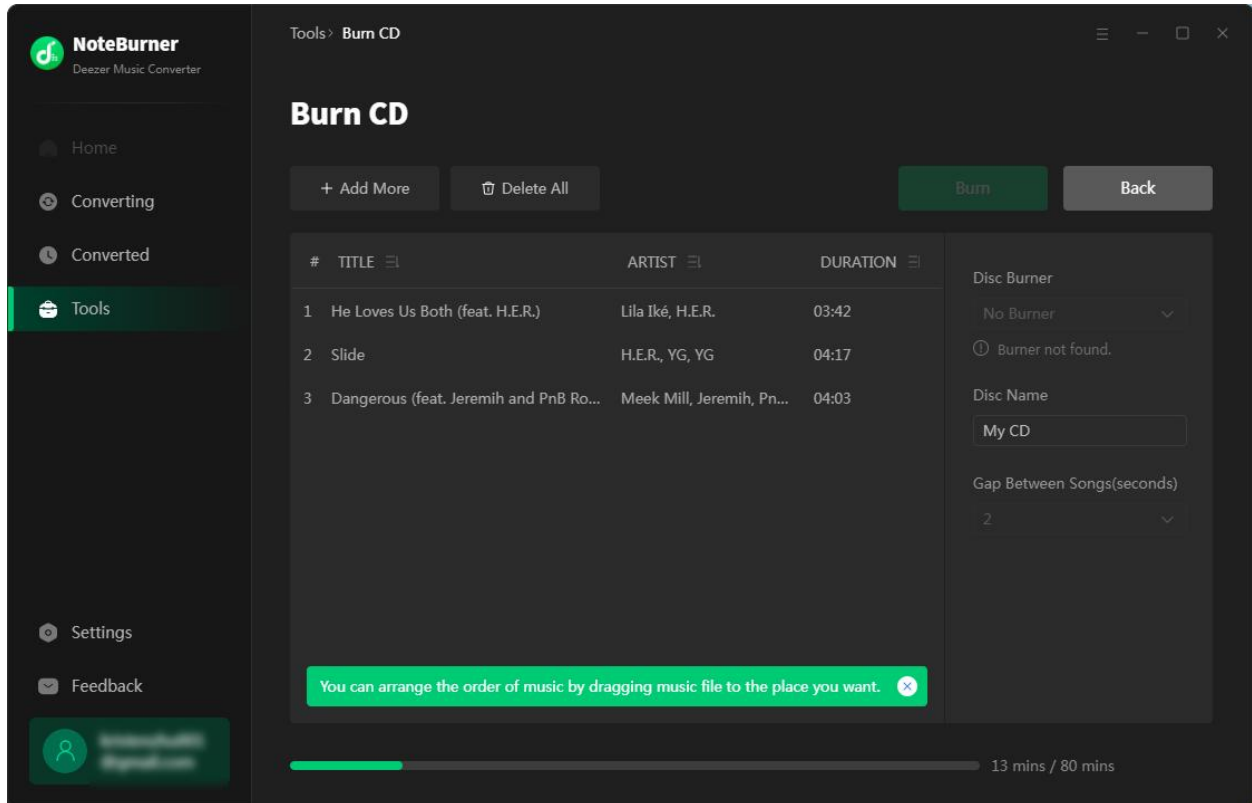

Convert Audio

Except for the basic feature of converting Deezer Music songs, NoteBurner is also able to convert the local audio files. Just get this tool "Format Converter" for a try.
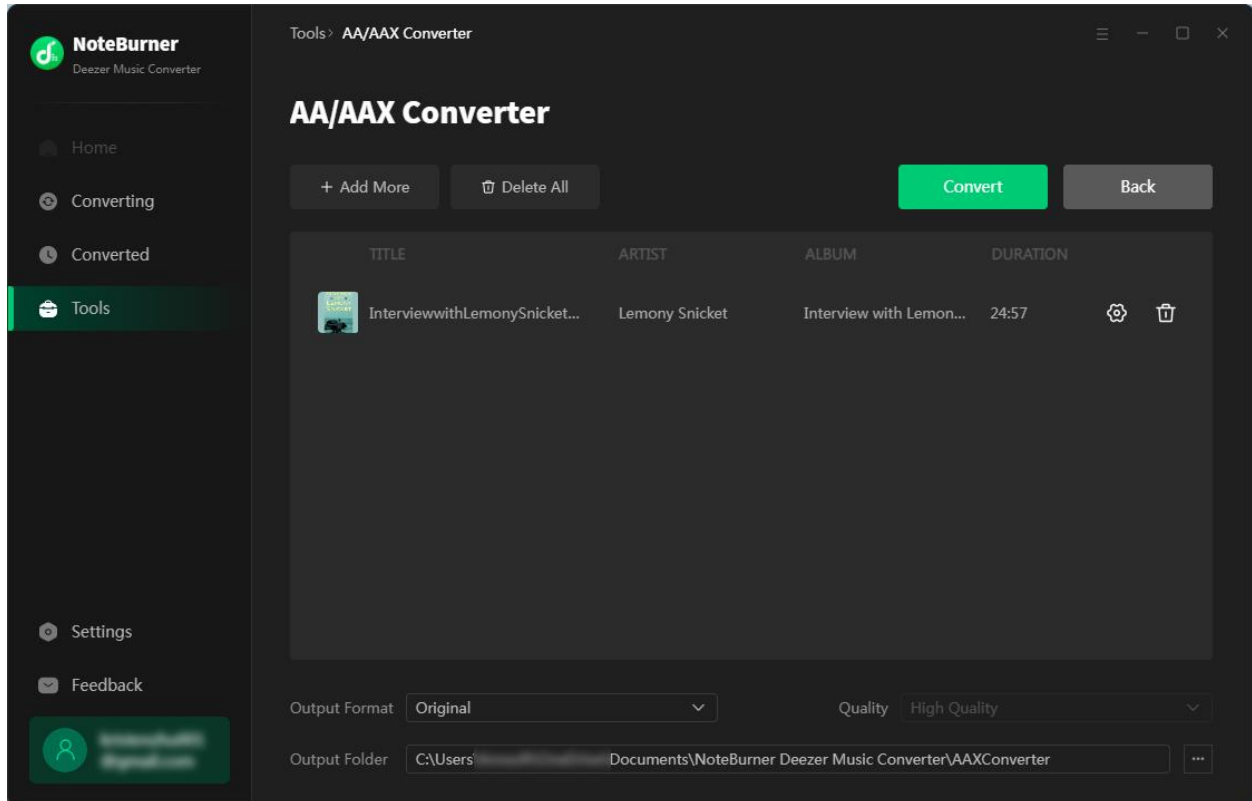

Burn Music to CD

For the converted Deezer Music songs, or the regular music files stored on local computer drive, NoteBurner can burn all music files to CD easily.

Convert AA/AAX Audiobook

Within the toolbox, you'll also get a "AA/AAX Converter", which supports to convert your local aa/aax audiobooks to M4A/M4B/MP3 plain format.
