NoteBurner Music One for Windows

Overview

- [Introduction](#)
- [Key Features](#)
- [System Requirements](#)

Introduction

Thank you for using NoteBurner Music One for Windows!

[NoteBurner Music One for Windows](#) is a powerful all-in-one streaming music converter which supports downloading music from Spotify, Apple Music, Amazon Music, Tidal, YouTube Music, Deezer, Pandora Music, Line Music, YouTube, SoundCloud, Dailymotion, Vimeo, and Veoh. Once the output parameters are set, this tool will effortlessly extract streaming tracks as MP3, AAC, FLAC, WAV, AIFF, and ALAC files, with pristine ID3 tags preserved. More than that, the program is capable of batch converting your cherry-pick playlists at up to 10X faster speed without losing any audio quality.

Thanks to the top-notch recording core, NoteBurner Music One is flexible in capturing audio content via App Mode and Web Mode. Also, you can choose to record streaming music songs in real-time. Of course, for further personalise the converted audio, users can make use of the in-built utilities such as a format converter, CD burner, and tags editor.

Key Features

- Convert Spotify, Amazon Music, Apple Music, Tidal, YouTube Music, Deezer, etc.
- Save streaming music songs to MP3, AAC, FLAC, WAV, AIFF, or ALAC.
- Support batch converting streaming songs at 10X faster speed in lossless audio quality.
- Keep ID3 tags including Title, Artist, Album, Artwork, etc.
- 1-Click to burn music to CD, edit ID3 tags, and convert local audio.
- Highly compatible with the latest Windows 11.

System Requirements

- Windows 7, 8, 10, 11 (32 bits & 64 bits)
- 1GHz processor or above
- 512 megabytes (MB) or higher RAM
- 1024*768 resolution display or higher Monitor
- 1GB of available hard-disk space or higher
