Purchase NoteBurner iTunes DRM Audio Converter for Windows

Quick Link: To purchase a license key for NoteBurner iTunes DRM Audio Converter for Windows, visit [here](#).

1. Why should I buy NoteBurner iTunes DRM Audio Converter for Windows?

NoteBurner iTunes DRM Audio Converter for Windows is a shareware, and the trial version has the limitation that you can only convert first **3 minutes** of each audio. After you purchase our product, you will be provided with your Registration Email and Registration key which will unlock the trial version limitation.

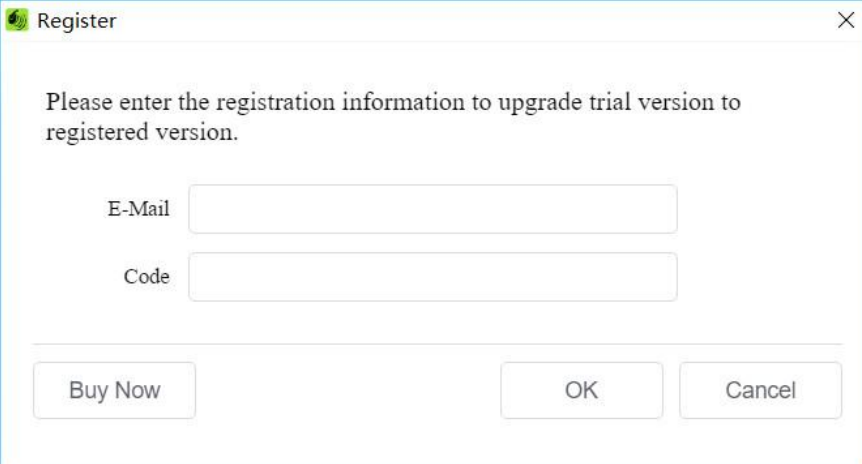

2. What Benefits do we have after Registration?

- Unlimited use without any function restrictions.
- Lifetime FREE upgrades to the latest versions of the same product.
- Lifetime FREE technical support.

Register NoteBurner iTunes DRM Audio Converter for Windows

Step 1: Run NoteBurner iTunes DRM Audio Converter on PC. First you should click **Menu Settings** button  on the upper right, and then select **Register** option to register your program.

Step 2: Please fill the input blanks with Registration Email or Register Name and Registration key. You may use **Ctrl+C** to copy and **Ctrl+V** to paste in the window. Then please click **OK** button.

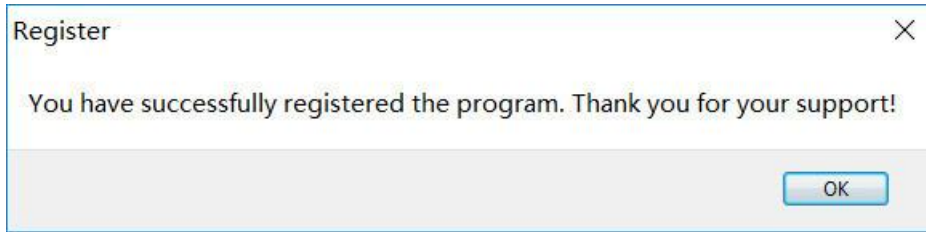

The screenshot shows a dialog box titled "Register" with a close button (X) in the top right corner. The text inside the dialog reads: "Please enter the registration information to upgrade trial version to registered version." Below this text are two input fields: "E-Mail" and "Code". At the bottom of the dialog, there are three buttons: "Buy Now", "OK", and "Cancel".

Step 3: After finishing the Registration, the limitation of the trail version will be removed.

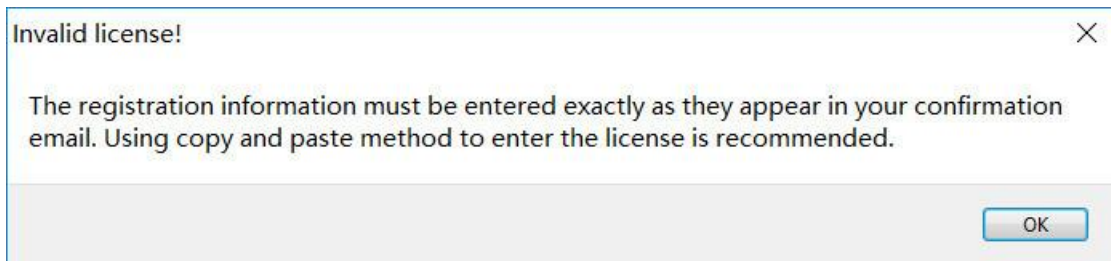

NoteBurner iTunes DRM Audio Converter for Windows

Notice:

1. Your computer should be connected with the Internet.
2. Make sure the both Registration Name or Email and Registration key are provided by our company after you pay the registration fee. If you have not paid, please click **Buy Now** to [purchase](#).
3. Please Make sure Registration Name or Email and Registration key you entered are both completely and correctly, if not, an error message will pop up as below:

4. If you are old user of NoteBurner who purchased NoteBurner iTunes DRM Audio Converter for Windows before **September 30, 2016**, you still need to register our program with your **user name and registration code**.

Installation & Interface

- Installation
- Main Interface
- Converting Interface
- Menu

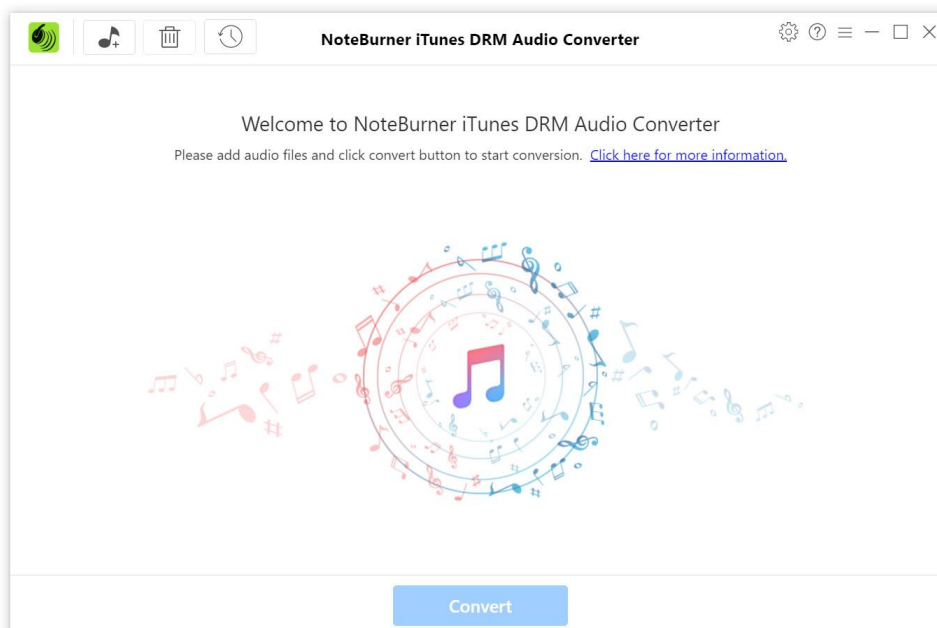

Installation

To install this product, please do as the following steps:

1. Download and install NoteBurner iTunes DRM Audio Converter for Windows from [Download Center](#).
2. Double clicks the installation file NoteBurner iTunes DRM Audio Converter to start installing it on your computer.
3. Follow the instruction to finish the installation.
4. You can choose to create a desktop icon of this program, and you can just run the program from the desktop.

Main Interface

After launching NoteBurner iTunes DRM Audio Converter on PC, you will see the main interface like this:

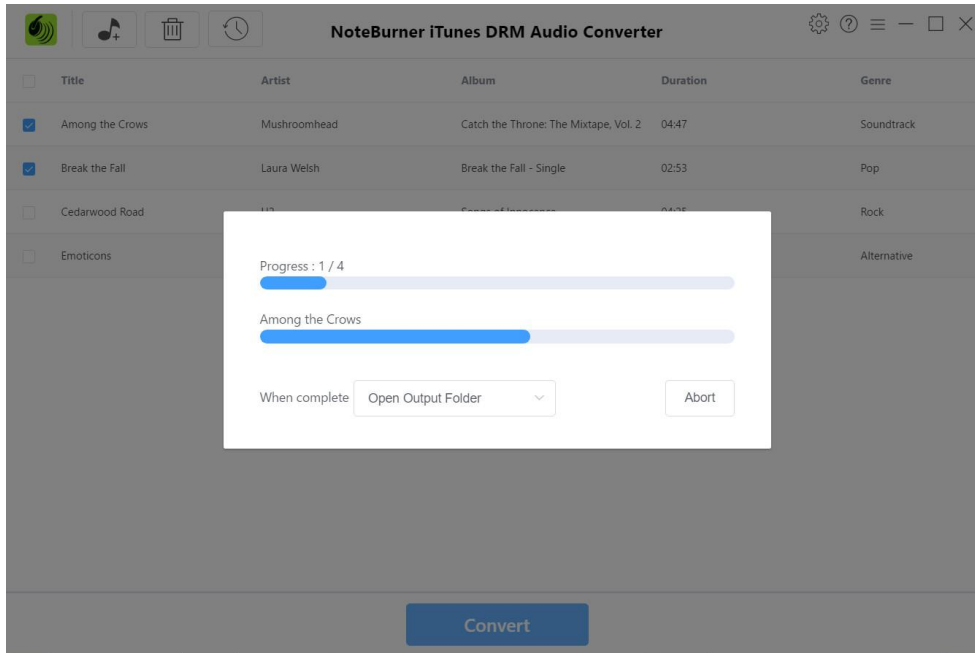

NoteBurner iTunes DRM Audio Converter for Windows

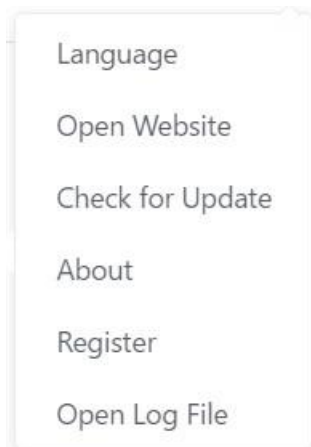

Converting Interface

After clicking the **Convert** button, you will see the converting interface like this:

Menu

When clicking the **Menu Settings** button  in the upper-right corner, you will see the menu list like this:

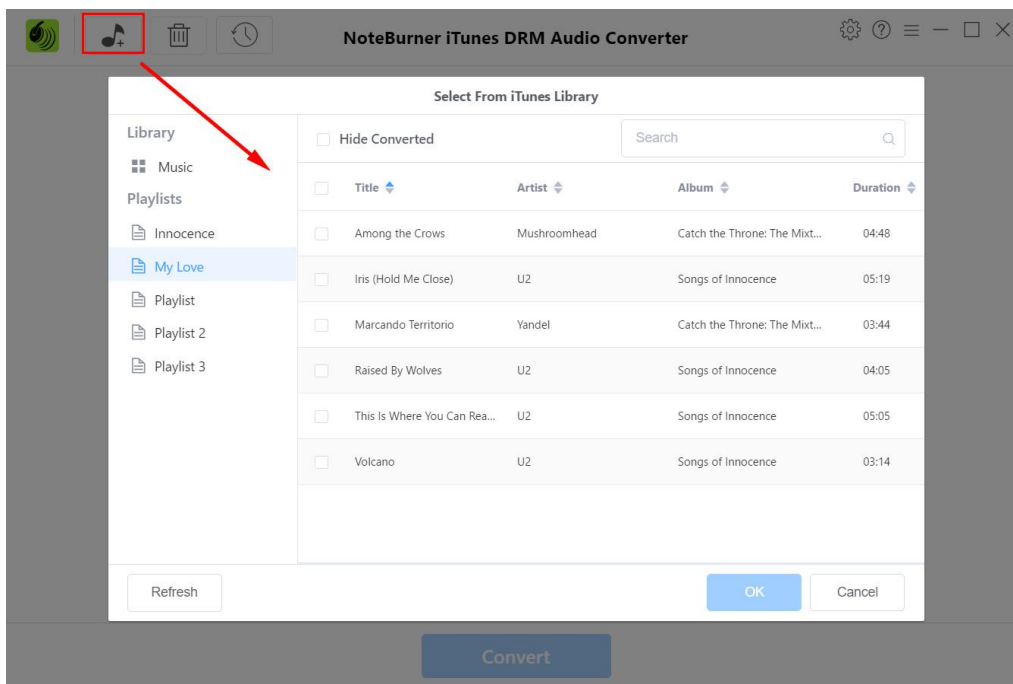

Tutorials

- Import Music Files
- Delete Music Files
- Choose Output Profile
- Customize Output Directory
- Convert Audio Files
- Find Conversion History

Import Music Files

Step 1: Click “+” on the upper left corner, then the adding window would pop up. Then click the **OK** button to locate and select the files you want to add.

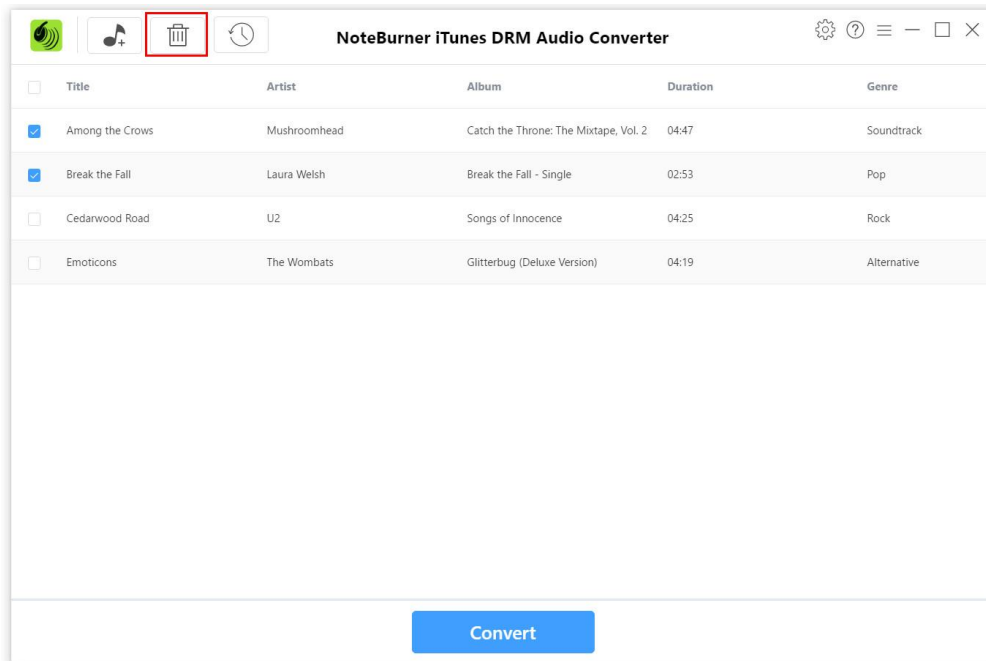

Delete Music Files

Select the files you want to delete at first. Then Click the  button to delete.

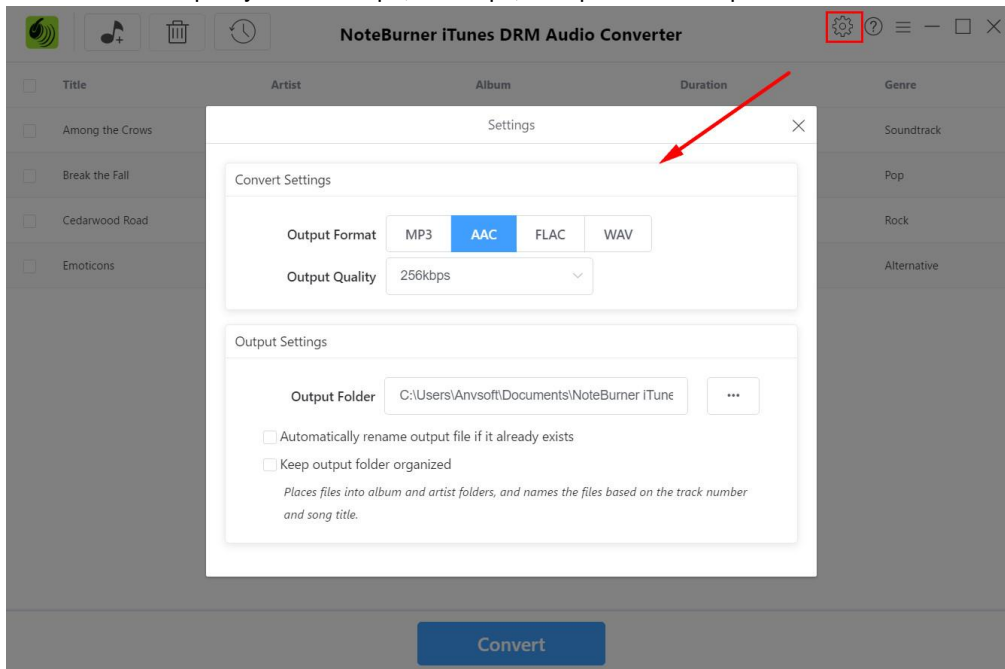

NoteBurner iTunes DRM Audio Converter for Windows

Choose Output Profile

Click the  button on the upper right corner of the interface and then it will pop up a window allowing you to set convert settings and output settings. Here you can choose output formats like MP3, AAC, WAV or FLAC and audio quality like 320 kbps, 256 kbps, 192 kbps and 128 kbps.

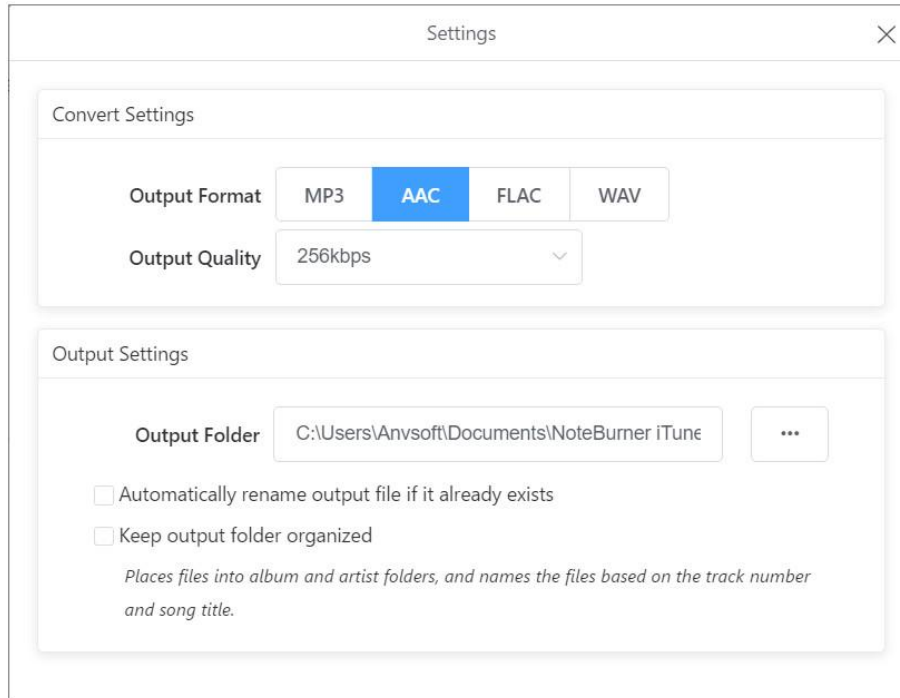

NoteBurner iTunes DRM Audio Converter for Windows

Customize Output Path

Click the  button on the upper right, then you can customize the output directory in the pop-up window. If you want to organize the output audio into Artist / Album folders, just check "Keep output folder organized".

Tips:

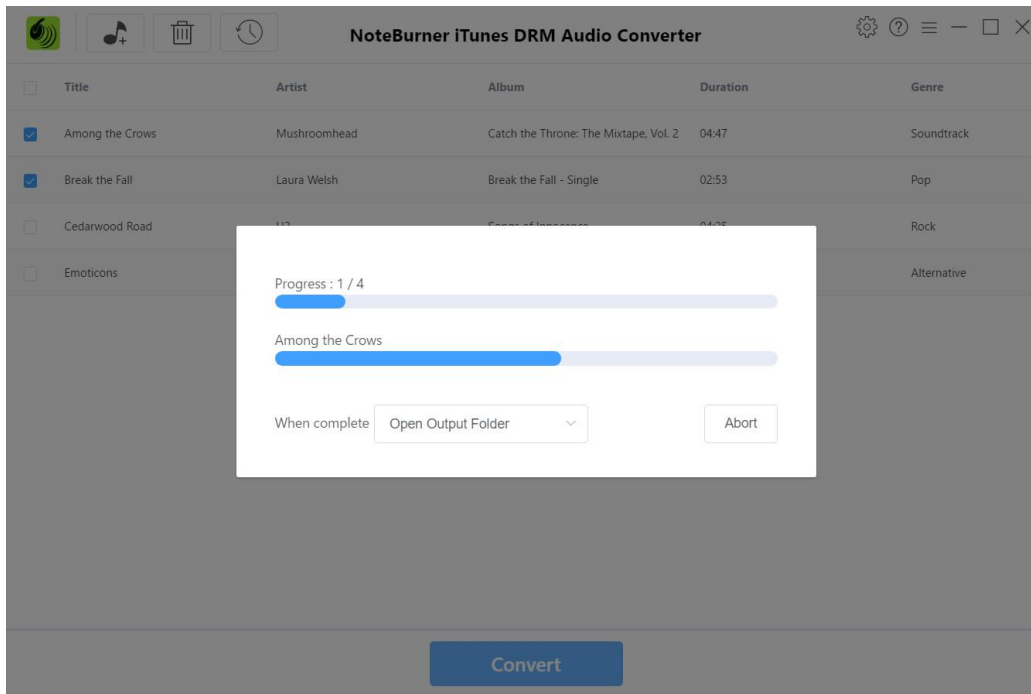

1. If you don't change the output path, the converted files will be saved in NoteBurner default folder:
C:\Users\User Name\Documents\ NoteBurner iTunes DRM Audio Converter
2. You can click the **Open** button to show the output path.

Convert Music Files

After adding the music files, choosing output format and customizing output path, just click the **Convert** button to start the converting.

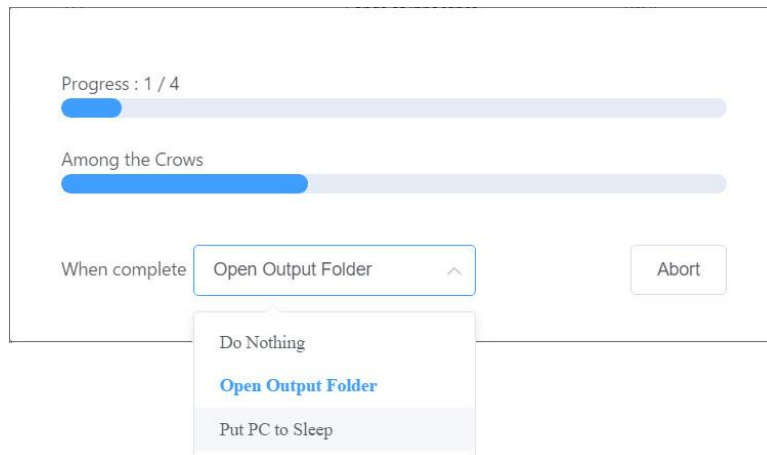

NoteBurner iTunes DRM Audio Converter for Windows

Note: 1. Before converting, make sure your computer is well authorized with the same Apple ID that you used when downloading the audio. And please make sure that the original file can be played on iTunes. If you purchased the audios on iTunes store, the audios must be authorized.

2. There are three modes provided to choose: Do Nothing, Open Output Folder, Put PC to Sleep.

Warning: Before the Status show converting progress, please don't do anything with iTunes during converting, the conversion may fail by occurring an error.

NoteBurner iTunes DRM Audio Converter for Windows

Check History Records

When the conversion is completed, the history records will be saved automatically. Click the **History** button on the upper right to show up the records.

The screenshot displays the 'History' window of the NoteBurner iTunes DRM Audio Converter. The window title is 'History' and it includes a search bar. The main content is a table with the following columns: Title, Duration, Size, Time, and Operation. The table lists four tracks:

Title	Duration	Size	Time	Operation
Emoticons	04:19	8.1 MB	12:22:00	...
Cedarwood Road	04:25	8.4 MB	12:21:27	...
Break the Fall	02:53	5.4 MB	12:20:50	...
Among the Crows	04:47	9.0 MB	12:20:27	...

At the bottom of the application window, there is a 'Convert' button.
